Commits (history)	58
First commit	`5e9d90a8c3921bd6cc2f2f4636a221e0922899d6`
First commit date (UTC)	2026-04-06T15:10:26+02:00

Independent content digests (SHA-256)

Computed independently of git, so a third party can verify file contents without trusting the repository.

Key-documents digest (SHA-256):
`853522be167d75f248b40e464cb91ac4e9ae3da238c0aba9a8c9d9ec01b8b9f0`

Timestamping / notarisation (optional, recommended)

To prove that this manifest existed at a given moment, obtain an independent timestamp of its SHA-256:

- **OpenTimestamps** (free, blockchain-anchored):

` ots stamp docs/legal/evidence/ip-evidence-manifest.json

later, after the Bitcoin anchor is confirmed:

ots upgrade docs/legal/evidence/ip-evidence-manifest.json.ots ots verify docs/legal/evidence/ip-evidence-manifest.json.ots `

- **Notary** (Republic of Kosovo): present this manifest, or a printed PDF of it, to a notary and have the date certified.
- **GPG** (optional detached signature with a personal key): `gpg --armor --detach-sign docs/legal/evidence/ip-evidence-manifest.json`

Files in this bundle

- `ip-evidence-manifest.md` — this summary.
- `ip-evidence-manifest.json` — full machine-readable detail.
- `ip-evidence-manifest.sha256` — checksum of the JSON file.

Evidence of provenance only. Not legal advice.
